Forecast for Sunday 04 Jun 2023

Weather: A cool start to the day with a fresh breeze. Quickly warming up with long-lived sunshine and winds easing. Some scraps of low cloud possible across easternmost hills early on, but rapidly clearing.

Chance of cloud-free hill tops above 600m: 100%, but 90% in the east early on.

Low cloud and visibility: Very isolated patches possible on eastern hills at around 500m, but soon clearing. Clear skies through the day with very good to excellent visibility.

*Level above which ground is expected to be frozen/snow is expected to settle.

Meteorologist's View

Very High UV levels expected, so adequate sun protection recommended in addition to keeping well hydrated if spending a day on the hills. Rather chilly on the higher slopes first thing.
